Remind me in the morning. I'll be running a little late so if I'm not there, talk to Rusty. We might be better off asking them who their supplier is and then getting it from them.

Hi Mike,

Would you be able to request from Freedom Industries a copy of the MSDS for glycerin from the manufacturer that Freedom purchases from to make their crude glycerin, recovered product. Since glycerin tends to be a mixed product and it is not clearly defined in Freedom's MSDS.

Thank you,

Melissa
